

**2026 SUMMER
FUNDRAISING
GALA
RAFFLE**

OUR MISSION

Menorca Preservation (MeP) we are a **non-profit foundation that promotes environmental awareness and the preservation of Menorca's natural heritage**, working in collaboration with local organisations and environmental heroes.

We strengthen the work of local environmental organisations by supporting and catalysing projects that contribute to the protection, conservation, and regeneration of its surroundings, focusing on four pillars:
Land, Sea, Clean Energy, and Plastic.

PROJECTS INSPIRING CHANGE

We are supporting a pilot regenerative agriculture project at **Finca S'Ullestrar**, demonstrating that food production and nature regeneration can go hand in hand. This summer, the farm will achieve a major milestone with its organic certification.

The improvements implemented have already made it possible to reduce the number of dairy cows by 17.6%, while milk production has increased by 19.45% and sales revenue by 15%.
